

Request to Update Personal Information

Dear Valued Investors in the capital market,

Capital Market Authority (CMA) wishes to inform all investors in the capital markets that it is important to ensure your personal information with your securities brokers/investment managers is accurate and up to date.

We therefore request all investors to review and update their personal details through their licensed capital market intermediary (stockbrokers, investment managers, investment banks) including contact information, address, identification documents, and any other relevant records by 31/01/2026.

Keeping your information current and up to date helps to:

- Maintain accurate and secure records,
- Timely payment of dividends and interests,
- Ensure timely communication and service delivery,
- Strengthen the integrity and transparency in capital markets by preventing fraud, identity theft or unauthorized transaction,
- Comply with regulatory and administrative requirements.

You may update and confirm your information by contacting your licensed market intermediary. The list of licensed market intermediaries and their contacts can be found here: <https://www.cma.rw/index.php?id=25>

Alternatively, investors who do not have information on their assigned market intermediaries but hold shares in listed companies are advised to reach out to Investor Relations Officers (IROs) of those companies for assistance. The list of Investor relations officers and their contacts can be found here: <https://www.cma.rw/index.php?id=165>

Failure to comply may lead to non-receipt of dividends or interest and inability to execute further transactions.

For any assistance or inquiries, please contact us at info@cma.rw
